CAN'T USE YOUR EXISTING BATHROOM

If your bathroom is under renovation, hard to access, or no longer meets your needs, a CarePort is the perfect solution.

Unlike most portable bathrooms, CarePorts are set up inside your home – no need to go outside.

You'll get your own private, accessible bathroom where you feel safe and comfortable, right where you need it most.

WHAT YOU WILL GET WITH A CAREPORT

- ✓ Shower and toilet access: A complete freestanding bathroom unit installed indoors.
- ✓ Quick setup: installed and removed by our team – with no damage to your home.
- ✓ Safe and compliant: fully meets Australian plumbing and electrical safety standards.
- ✓ Comfort-focused: works with most shower chairs and stools. Adjustable shower head height.

PERFECT FOR

- ✓ Staying at home during bathroom renovations
- ✓ Coming home from hospital and need a safer way to shower
- ✓ Unable to access your current bathroom
- ✓ Waiting for home modifications and need a temporary solution

SET-UP - WHAT IS REQUIRED

- ✓ At least 300mm of space at the rear
- ✓ A standard power outlet (10amp, 240V)
- ✓ Access to a garden tap and sewer drain
- ✓ A nearby window or door to access plumbing
